A NOTE ON CATERING CHARGES FOR CHILDREN

Children aged 6 years or under will be charged at half price if they are served all or part of the same menu as adult guests, or a separate children's menu. Children aged 7 to 12 years who choose a separate children's menu will also be charged at half the standard rate for a formal dinner. We do not count babies for the purposes of catering. It is recommended that parents bring their own provisions for very young babies and arrange the preparation of this food themselves. Access to refrigeration, sink and a microwave is available.

NOTES ON BOOKING YOUR CATERING SERVICE

All catering must be booked formally before your arrival at Wedderburn. We will draw up an itemised estimate based on your projected plans before your booking is made, so general plans must be discussed at a very early stage in the planning process. Check that your table plan will work in practice, particularly if you would like a top table. Your requirements may evolve during the build-up to your arrival, and we need to know exactly what your final requirements are. To ensure that we do know, at least fourteen days prior to your arrival it is essential that the schedule (on page 2 of your estimate) includes:

The time each meal is to be served

The menu for each meal (principal choice and vegetarian choice for each course)

The number of guests requiring each menu option (if applicable)

The number of children aged 6 or under (see charges for children)

The room in which the service is required (e.g. Dining room, ballroom, kitchen)

Your catering schedule must be fixed 14 days prior to your arrival. Full payment is due at this point. After this point it is not possible to change menu choices, or to adjust the number of covers downwards.

The prices quoted for dinner assume that one choice will be made for each course for all guests. It is also assumed that a vegetarian option may be required where relevant. An additional charge (from £3 per person, per course) will be made for each additional course option ordered. Suggested catering prices assume that full-board catering will be provided for a 'full house' (i.e. at least 22 people) Depending on the circumstances, if fewer guests are present the catering price per person may increase.

If you would like an advance tasting to help make menu choices we can arrange for this only if Chef has time in his schedule. We do not run a restaurant, so a tasting is essentially a bespoke dinner. The service will be charged for at cost (time and ingredients) plus VAT. Generally it takes between one and two days to prepare a tasting. Please note that one example of each menu choice will be prepared, and these choices should be discussed with chef in advance to allow for delivery of provisions from our usual suppliers.

Catering charges for children are as follows: Children aged 6 years or under will be charged at half price if they are served all or part of the same menu as adult guests, or a specific children's menu. We do not count babies for the purposes of catering. It is recommended that parents bring their own provisions for very young babies and arrange the preparation of these meals themselves.

Often people hired in to provide third-party services (e.g. photographers, bands and so on) ask to be fed. It is worth checking with these people to find out before you book your catering, as we need to know if this service is required. We are happy to offer suppliers the same food as your guests, or staff food at £10/head.

All catering charges include for waiting staff. For formal dinners, unless requested, your tables will be set with white linen table cloths and napkins, with flatware and crystal according to your menu and drinks. Table name holders are also supplied. According to the formality of your dinner, please provide us with any table favours / printed table stationary / other table decorations and display table plan on arrival. We provide an antique easel with A1 size pin board to display your table plan. Place names must be in envelopes in order for each table.

For formal foodservice we expect to provide one member of waiting staff for every 10 guests.

For drinks service, whatever your chosen drinks option, we expect to provide at least one drinks waiter per 25 to 30 guests during each evening of your stay. We ensure the supply of fresh glasses throughout the evening, the presentation and clearance of all drinks ordered. We provide ice, lemons and limes and arrange for disposal of all bottles etc.

Our 'drinks waiters' are experienced and discreet, but their role is a general one, and may for example include portering / showing guests to their rooms on arrival. They are not cocktail waiters.

When considering your catering requirements, please remember that service not ordered prior to your arrival probably cannot be provided once you are here.
